It seems to become an ally of Spain to help her crush the perpetrators of barbarities which have been of almost daily occurrence in Cuba for several years. So far as the State Department is concerned there is nothing to indicate that it has any expectation that the end should be the breaking up of slavery in that Island, but that bloodshed might be stopped. The action of the government in sending a dispatch to Minister Sickles with direction to at once incommon that the United Jista: would insist upon protection could not be affected by Spain was one of friendship to Spain and not a mence. At least this is the way it appears to-night, and sending of war ships into Cubin waters is not that they may be on hand prepared to watch the Spanish, but to watch the Cuban authorities, acting under the government of Spain. It is stated to-night that entangling tapes of diplomacy were cut by the President and that the personally wrote a dispatch to Sickles at Madrid directing an offer of coperation to be made to the President of Spain. Not the slightest doubt is entertained in official circles that the Spanish government will accede to the proposition, and that all details will be arranged without the delay usually attending diplomatic transactions. It is well known here that the intimacy be Castelar and Sickles is of a close character and it is believed that the former will cheerfully and even gratefully accept any proposition. and even gratefully accept any propositi looking to a closer relationship between the two countries. This view of the case accords with the desires and understandings of the State Department, whose head has always

While the Pennsylvania Railroad has repeated the dodge of script dividend, its rival, the Baltumore and Ohio road has just paid a semi-annual dividend of five per ceat in cash. The latter company acknowledged a large falling off in freights, but it is probably the only railway corporation in the country which is going on with its extensions; and full gangs of laborers are laying track up the valley of Virginia to Salem, and putting down a triple track on the main stem.

FOR THE YEAR 1874.

Desirous of creeting a new and larger edifice on another street, the Proprietors of THE CONSTITUTION offer its subscribers the following unparalleled List of Presents. THE CONSTITUTION is already the acknowledged foremost journal in all this section of the South. The great eight-paged Sunday paper will be continued, and also our Pictorial Illustrations that have become so popular everywhere, and especially in the homes of our Weekly subscribers. We present from time to time articles from the corresponding editor of THE CONSTITUTION, Hon. A. H. Stephens. As a Political, Literary, Family Newspaper, THE ATLANTA CONSTITUTION. ONSTITUTION shall be second to none.

PLAN.—Every subscriber who sends us \$10, subscription money for 1874, will be sent, in addition to his bscription receipt, a gift card, for which he will receive at the grand distribution one of the presents in the llowing

We make two express elipulations. First. We reserve the right to pay cash in lieu of the first 12 press. Second. We can require our Trustees, hereafter named, to scale, if necessary, the prizes to the number cards disposed of, but in any event to retain one of the Building prizes for Distribution.

PLAN OF DISTRIBUTION. To represent the numbered cards issued to subscribers, 5,000 cards, each marked with the name of a present, and including all in the above list, will be thrown together and thoroughly mingled. From the receptacle of these cards, into which only a hand can be passed, one card after another will be drawn and numbered in the order drawn—1, 2, 3, etc. For instance, that subscriber having the card numbered 6, is entitled to the present upon the sixth card drawn. As the entire transaction will be in public, the cards are only numbered as drawn out, and all the cards will be drawn, everything must be perfectly fair, and some of our subscribers must become the owner of a half interest in the building, valued at \$7.500, and the other leading presents, valued at from \$100 to \$400 each, including two city lots, will be held by other subscribers.

Mesers. W. A. Hemphill & Co.—Dear Sirs: We have received from you titles, properly signed, to one-half interest in the Constitution Building, which, as Trustees, we shall deliver to the parties entitled to it under the plan of distribution advertised by you. The building is, including basement, flow stories high, one of the handsomest and best built in the city, and we think, with lot, correctly valued at about \$15,000.

OBSERVE. PUBLIC DISTRIBUTION.—The presents will be distributed in public, in presence of Mayor Hammock, General Austell, President Atlanta National Bank, Judge S. B. Hoyt, Cashier Georgia Railroad Bank, Judge C. H. Strong, Col. G. W. Adair, President Georgia Western Railroad, Col. J. R. Wallace, and others.

1. We allow only sixty (60) days from this date, October 16th, for the operation of this grand scheme, and therefore, all who would selze this splendid opportunity must do so within 60 days.

2. By special request, any two daily subscribers can obtain two six months' receipts and one card, or a \$5 subscription will secure the paper for the first six months of 1874 and one-haif intered in any of the first four-teen presents, should any one of them be drawn to the card.

3. WEEKLY subscribers have an equal chance of participation by forming clubs of five, to whom five annual receipts will be sent and one card for \$10 subscription.

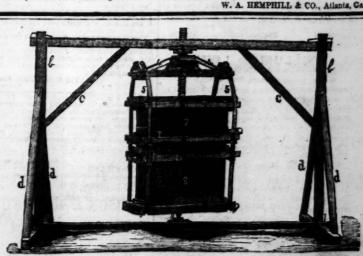

4. Send money direct by Post Office Order, Registered Letter or Express.

5. We call special attention to this fact to avoid any dissatisfaction. Only 5,000 cards will be issued. We shall possitively refuse to increase the number, which is less than the number of old subscribers. As all new subscribers are entitled to share in the distribution, it will be seen that it is necessary to remit at once, or the limited number of cards may be disposed of and the chance missed.

How to Live Economically.—The problem of how to economize in living is one that engages the serious attention of a great many people. "Many a little makes a mickle," was one of Benjamin Franklin's "Poor Richard," truism that summarizes the whole system of popular extravagance. If you wish to save money, economise in little as well as in large items of expenditure. For all the household purposes for which polishing powders, Bath brick and soap are usually used, excepting the one thing of washing clothes, Sapollo is by many times the cheapest article that can be employed. To say nothing about its great superiority to all other substances, it is, on the score of money alone, by far the cheapest. Remember this fact and save many dollars every nov12—diw great that the control of the control of the control of the cheapest in the world—perfectly with the control of the control of the control of the control of the cheapest in the world of the control of the co

PURCES, PURIFIES AND STRENGTH ENS THE SYSTEM.

Dr. Tutt's Pills are composed of many ingredients. Prominent among them are Sarsaparill and Wild Cherry, so united as to act together; the one, through its admixture with other substance purifying and purging; while the other is strengthening the system. Thus these Pills are at the same time a tonic and a cathartic, a desideratum long rought for by medical men, but never before discovered. In other words, they do the work of two medicines and do it much better than any two we know of, for they remove nothing from the system but impurities, so that while they purge they also strengthen and hence they cause no debility and are followed by no reaction. Jowed by no reaction.

Dr. Tutt's Pills have a wonderful influence in the blood. They not only purify without weaken ig it, but they remove all noxious particles from the hyle before it is converted into fluid, and thus make the propagation of the propagation.
